SANITARY BOARD.We have been requested to publish the
following letter, addressed by the Governor to
Mr. J. J. Francis, Q.C., Chairman of the
Permanent Committee of the Sanitary Board,
regarding the lately established Chinese plague
hospital at Lai-chi-kok:—
Colonial Secretary's Office,
Hongkong, July 3rd.SIR,—I am directed to acknowledge the receipt
of your letter of the 2nd instant on the subject
of allowing the sick to proceed to the Hospital
at Lai-chi-kok, and in reply to point out that,
prior to the receipt of the letter now under
consideration, all the information in the possession
of the Government regarding the hospital in
question had been furnished by Surgeon-Major
James and the Captain Superintendent of Police,
two members of the Permanent Committee, who
reported favourably on the hospital, and its
general arrangements. When, therefore, his
Excellency was requested by the Chamber of
Commerce to facilitate the removal of the sick,
in view of the representations made to him of
the urgency of the case, and of the fact that
favourable reports of the Hospital at Lai-chi-kok
had been received, he decided to acquiesce in
the wishes of the mercantile community
expressed through its Chamber, and sanctioned
the removal of the sick to Lai-chi-kok on the
same conditions as in the case of the former
removals of the sick to Canton. His Excellency's
decision was communicated to you early on the
3rd inst., and his reply was received until
yesterday, when his Excellency, who has been
informed for the first time that the hospital
at Lai-chi-kok is in an insanitary condition,
So long as it remains in such
a condition, removals of the sick may be
undesirable, but the attention of the Viceroy of
the Two Kongs has been drawn to the matter
through H.B.M. Consul at Canton, and his
Excellency trusts that the hospital will become
a satisfactory one as it was when visited by the
Captain Superintendent of Police and Surgeon-
Major James. When it is restored to its former
condition, his Excellency desires such of the
sick as may wish to go to be removed, and if
the Permanent Committee still persist in their
refusal to co-operate in such removals, his
Excellency will reluctantly be driven to the
necessity of having the necessary arrangements
carried out independently of their assistance.As regards removals of the sick to Canton,
his Excellency has informed the Viceroy of the
Two Kongs that any sick patient wishing to go
to Canton may be removed under the same
conditions as formerly.The Governor declines to be bound by your
interpretation of the law regarding the legal
and executive powers of the Permanent Committee
of the Sanitary Board.His Excellency is advised that your interpretation
is incorrect, inasmuch as no such absolute
powers as you claim have been conferred upon
the Sanitary Board or upon the Permanent
Committee.With regard to your threat to resign your position
on the Permanent Committee, I am to state
that his Excellency, while appreciating your
services in connection with the plague, will
place no obstacle in your way should you desire
to put your threat into execution.In conclusion I am to inform you that a ques-
tion has been raised as to whether the members
of the Permanent Committee approved the drafts
of your letters under acknowledgment before they
were forwarded by you. In order to remove all
doubts on this point, I am to request you to state
for the information of his Excellency whether
the drafts of your letters were submitted to the
other members of the Permanent Committee,
and whether they approved of them.The Governor also desires to be informed whether
the publication of the correspondence which
appeared in the Daily Press of this morning
was sanctioned by the individual members of the
Permanent Committee.I have the honour to be, Sir,
Your most obedient servant,
(Signed) J. H. STEWART-LOCKHART,
Acting Colonial Secretary.The Chairman of the Permanent Committee,
&c., &c., &c.Extract from the report by the Captain Super-
intendent of Police, dated 30th June:—
"The sites of the hospital and cemetery are
well chosen, and do not seem to afford any
danger to the health of the colony."Extract from the report by Surgeon-Major
James, forwarded by the Permanent Committee,
27th June:—
"I do not consider that its existence constitutes
a danger to this colony, but I think it a good
thing."We are requested by Mr. Francis to publish
the following reply:—
Hongkong, 4th July, 1894.
SIR,—I have the honour to acknowledge the
receipt of your letter No. 1,146 of yesterday's
date in reply to two of mine of the 2nd instant on
the subject of allowing the sick to proceed to the
hospital at Lai-chi-kok. This letter only came
to my hands after five o'clock yesterday after-
noon, and after the termination of yesterday's
meeting of the Permanent Committee so that it
cannot be laid before the members until their
meeting this afternoon. Meanwhile as there are
certain matters contained in your letter which
seem to require a personal explanation or replyfrom me I hasten to answer those portions of
your letter.I sent in two letters on the 2nd instant in con-
nection with the subject now under consi-
deration—one in the early morning before 9 o'clock
—the other late in the afternoon about 6 p.m., or
later. The first accurately embodied and
expressed the sense of the Permanent Committee
and was, as therein stated, their unanimous reply
to yours of the 30th June, on the subject of the Lai-
chi-kok Hospital. Your letter of that date came
to my hands, as you say, early on Saturday.
It was laid before the Permanent Committee at
their meeting that afternoon and was considered
point by point fully and very carefully. I
proposed to draft a reply and send that draft
forward for approval, but my proposal was neg-
ative, and it was left to me to put into words the
opinions of the meeting. At our meeting on
Monday, my draft was submitted to the members
and accepted (it having been sent in that
morning) as the correct expression of their views
and opinions. Whether each member approved
of every word that was contained in that letter,
or of the term of every phrase, I really cannot say
nor would I consider myself at liberty to state
the reasons of the members of the committee
and the individual members of the committee
are not responsible for their words or actions in it.
Any trifling differences of opinion are merged in the opinion of the whole.
The work of a committee would otherwise be
impossible.As to my second letter, I have no copy of it
but shall be much obliged if you will let me
have one. Only the first paragraph of that
letter, as well as I recollect, was authorized by
the committee, the remainder of it being the
alleged proclamation had really been issued the
rest of the letter was, and was worded I think,
as the expression of my personal opinion.As to the second question, whether the
publication of the correspondence in the Daily
Press of yesterday was sanctioned by the
individual members of the Committee, I deny the
right of the Governor to ask the question or to
get any answer to it. As I said before, no
question was put to the committee, and the
members of the committee were not asked to
approve of the publication, one of the members
of the Committee of five not being present, as
well as I recollect, when the question was put.Permit me to further to explain that the delay in
replying to your letter of the 30th June, was
owing to a misapprehension. The committee
understood from the last paragraph of your letter
that no notification to the public of the
Governor's decision to sanction the removal of
the sick to Lai-chi-kok would be published until
a reply had been received from the committee.
No one supposed for a moment that a proclama-
tion on the subject was to be issued as of the same date. If we had had
any suspicion on the subject, a communication
would have been sent in however late on Satur-
day night, so as to stop it, if possible.Having gone to far, may I be permitted to say
a few words in reply to your letter generally, and
on the whole subject?—
Mr. May's and Dr. James' reports on the
Chinese Hospital at Lai-chi-kok were written at
a time when there was no idea of allowing the
sick from Hongkong to go there, and their
favourable report as to its state could have had
no bearing on that question. Surely the question
of whether it was, or was not, advisable to let
the mass of plague patients go there, and whether it
was suitable for that purpose was that which ought
to have been referred to the gentlemen on the
special report before any action was taken, or
the committee, who were known to be keeping
a close watch on it and who, to put their position
and duties in the very mildest possible form
were, as representing the Sanitary Board, the
constitutional advisers of the Governor in his
dealings with a purely sanitary question, or with
the sanitary side of a mixed character, half
political, half sanitary.Surely for the same reason his Excellency
before acting on the advice of the Chamber of
Commerce on a matter wholly without their
competence, however seriously it affected their
interests, might have asked the opinion of the
Permanent Committee of the Sanitary Board
who were, again I yield up all assertion of their
legal position, familiar with the question in all
its bearings and who were voluntarily devoting
all their time and their energies to the
sanitary interests of the community, and with
whom the Governor had been repeatedly in com-
munication on other phases of the same question.Again permit me to point out a very serious,
although, I presume, wholly unintentional mis-
statement in your letter now under reply.
You say the Governor "decided to acquiesce
in the wishes of the mercantile community
expressed through the Chamber and sanctioned
the removal of the sick to Lai-chi-kok on the
same conditions as in the case of the former
removals of the sick to Canton."His Excellency's proclamation to the Chinese
of Saturday sanctions the removal of the Lai-
chi-kok patients direct from their houses without
passing through any authorized hospital in Hongkong
and without any notice to any one until they get
to the wharf to embark. This proclamation sanc-
tions, inadvertently I am bound to believe, the
direct removal of the sick to the wharf, and the
removal of the sick to the wharf, and the removal
of the sick to the wharf, and the removal of the
sick to the wharf, and the removal of the sick to
the wharf, and the removal of the sick to the
